

The Apiary Fellowship

Do you want to create a thriving future for children across Australia? If so, then the Apiary Fellowship is the place for you!

The Apiary Fellowship is a collective group of individuals from different areas of the Early Learning system (broadly defined) who come together to commit to creating thriving futures for all children across the country.

Together, the Apiary Fellows practice big picture thinking, build capacity for systems leadership and cultural competency, and exchange ideas through open dialogue and engagement. In doing so, Fellows aim to challenge the status quo by imagining a more effective, transformed early learning system in which all children have equal opportunities to prosper.

If this sounds like the right fit for you, please register your interest below via the QR code.

Join Us To...

- Shape a shared vision for the future of early learning, co-designed with children, families, and communities
- Build skills and capacity for system change and systems thinking, cultural competency and inclusivity, adaptive leadership, action learning and innovation
- Work on collaborative projects to address key systemic challenges big and small
- Convene for 2-3 days up to 4 times a year in locations on and across the country with early childhood practitioners, thinkers, and leaders.
- Be part of an Impact Community dedicated to supporting innovation, project development, and promotion of system-level interventions to elevate children's voices and early learning.
